

Grants awarded under the Tackling Social Isolation programme 2020/21 August 2020

7 grants totalling £930,823

Organisation	Project Location	Grant Amount	Project Description
Brooke House Project	Northern Ireland	£122,892	The Project will look to support grant holders of the Tackling Loneliness programme, specifically delivered to successful grantees in the County Armagh, Fermanagh and Tyrone regions of Northern Ireland. The programme will support the development of the project, enabling access to appropriate health, statutory and voluntary care pathways whilst ensuring project issues such as sustainability, safeguarding and good governance are all key to the programme delivery. Further, the programme will look to collaborate with other Tackling Social Isolation grant holders to share learning and develop legacy resources for grant holders.
CAIS	Wales	£123,478	The proposed project will create a clear and structured process to enable grant holders for the Tackling Loneliness programme to assess their projects in 360, and using a range of specialist supports, help to develop robust impactful outcomes. The applicant will work with grant holders to look at all aspects of the project from governance and financial sustainability, to processes and policies, and an in-depth look at mental health provisions and existing/new care pathways and support services. Through collaboration they will work with other Tackling Social Isolation grant holders to ensure consistency in supports and to build a repository of practical and relevant resources for all grant holders.
Inspire	Northern Ireland	£124,533	The project will aim to work collaboratively with all other Tackling Social Isolation grant holders to provide a strong cohort of organisations under Tackling Loneliness; with good governance, sustainable programmes, well curated mental health pathways and robust Armed Forces community buy in. The project will further take the expertise of the applicant as one of Northern Irelands primary mental health charities and commissioned service providers to support grant holders to manage and support beneficiaries who present with a high clinical need to ensure they are correctly signposted and supported whilst developing the longer-term knowledge and care pathways of the organisation at the same time.

Solent NHS Trust	England	£140,000	Solent NHS Trust proposes to work with Tackling Loneliness grant holders to support their programme development and enable them to become embedded in wider health and social care pathways. They will further support the overarching governance and business planning of the grant holders to assist them to strengthen their longer-term sustainability towards creating more resilient and robust sector organisations. They will look to provide a suite of training resources, 1-1 mentorship and organisational review as well as the co-development of risk assessment processes and up to date mental health and critical care support training with a focus on tackling loneliness and social isolation in vulnerable beneficiaries.
V1P Scotland	Scotland	£139,920	The proposed project will support Tackling Loneliness grant holders in Scotland, including the islands. Specialising in organisational mentorship and peer development, they will aim to create a network of support for grant holders to ensure programmes are successful and sustainable. Through 1-1 and group support they will tackle areas ranging from organisational governance and financial sustainability to accessing wider care pathways and community asset building. Through collaboration with other Tackling Social Isolation grant holders, they will support shared learning, problem solving and the design and delivery of training and legacy resources to support current and future programmes.
Walking With The Wounded	England	£140,000	The Project will look to support grant holders of the Tackling Loneliness programme in Northern England with a focus on Greater Manchester and Tyne & Wear, where they have been delivering the Tackling Serious Stress programme through the Northern Care Coordination Partnerships (NCCP). They will offer resources, grant holder upskilling, awareness and access to wider care pathways and mentoring on key delivery areas. They will support grant holders to reach previously difficult to reach beneficiaries in an appropriate and safe way understanding the grant holders' specialisms and capabilities. In addition, they will actively look to support the growth and development of the Tackling Social Isolation collaboration process and opportunity by bringing on board experiences gained through their time as a Strategic Pathway partner.
Wigan Council	England	£140,000	The Project will look to support grant holders of the AFCFT Tackling Loneliness programme in the Wigan Borough and boundaries. They will provide mentorship and practical training to grant holders in areas such as good governance, building partnerships and community development, sustainability of programmes and organisational wellbeing (processes, finances and sector engagement). They will use their experience to provide informed supports and solutions. They will

			work closely with other Tackling Social Isolation grant holders to ensure consistency and shared learning whilst also producing legacy resources for existing and future grant holders.
