

Grants awarded under the Service Pupil Support programme 2024/25 – July 2024

21 grants totalling £1,372,015

Organisation	Project Title	Grant Amount (£)	Project Description
Scotland			
Aberdeenshire Council	The Aspire Project	£40,950	This project will provide deeper awareness about the lived experience of Service pupils across primary and secondary schools and will create of a framework of support and intervention. This will improve pupil attainment, engagement, positive destinations and pupil wellbeing, allowing the closure of any gaps.
Firrhill High School	Attainment Support Programme (ASP)	£80,000	The Attainment Support Programme (ASP) will close an attainment gap between Service and non-Service pupils. This individualised and targeted programme will support Service pupils through mentoring and high quality targeted teaching.
Forres Academy	FAAMS	£80,000	Forres Academy will utilise Family Link Workers to support the varying needs of Service pupils and their families across their three schools, ensuring positive engagements which will increase wellbeing, attendance, engagement, attainment and achievement.
Kinloss Primary School (The Moray Council)	Forres Small and Big Project	£80,000	The project will build upon previous good work, existing academic data, research and lived experiences to support targeted academic, social and emotional interventions and ASN needs. This will ensure Service children have access to equitable support across rural schools and isolated schools when experiencing the challenges of exceptional mobility and deployments.

St Gerardine School	Targeted Support Intervention	£79,728	This project will work with Service children with additional support needs, especially where there are barriers to learning and/or transitioning into school.
Argyll & Bute Council	Supporting Armed Forces Young People	£73,000	Argyll & Bute Council will provide academic and wellbeing support across education establishments in Helensburgh & Lomond. The project will offer support with literacy, numeracy, health and wellbeing, transitions and deployment
Wales			
Llantwit Major School	Service Pupils Equity Programme	£79,063	This project aims to identify bespoke needs of Service children and address them within small groups or individually. Across the cluster, the project will enhance readiness for learning, and close gaps in attainment where they exist.
Pencoed Primary School	Supporting Basic Skills and Transition	£40,000	This project will support the development of speech and language, literacy and numeracy, wellbeing and transition across a cluster of schools. It will do this by employing specialist staff and support staff for the delivery of bespoke programmes of support and developing a programme for Service children's transition.
Ysgol Golwg Pen y Fan	Personalised Support for Service Children	£78,020	This project will support Service children with their personalised needs including social and emotional, multilingual, ALN and targeted support for learning as they transition in and out of schools in Wales. The project will promote and share practice, building relationships and experiences.
England			
Blackpool and The Fylde College	Achieve Your Potential	£77,753	Bringing together a consortium of Further Education colleges in Lancashire, 'Achieve Your Potential' will test the impact of providing personalised and targeted support on the retention, attainment and progression of Service children aged 16-18.

Carnagill Primary School	H&R Service Families Autism Project	£78,840	This project will support schools and post-16 settings in meeting the unique needs of Service Family pupils with autism or autistic traits. Specialist outreach visits and formal courses will be available, empowering families and leaving a lasting impact on school and settings staff teams.
Colerne CE Primary School	Empower Colerne SEND Service Children	£40,000	This project will continue Colerne CE Primary School's work around supporting SEND service children, exploring opportunities for outreach and sharing good practice with other military schools.
Faringdon Learning Trust	Service Pupils Targeted Support Programme	£80,000	The project will provide schools with access to a qualified teacher tutor who will provide focused intensive intervention support for individuals and small groups. The focus will be on narrowing gaps in achievement in English and Maths across the transition from primary to secondary school.
Kiwi Primary School	Kiwi Safe Spaces Project	£40,000	This project will support Service children at Kiwi Primary School who experience challenges in terms of their social, emotional and mental wellbeing to develop strategies which will help them regulate their emotions and break down barriers to learning.
Learning Academies Trust	Supporting Service Children to Succeed	£80,000	The project will fund a mentor to provide targeted learning and academic intervention for military children who are not working at age related expectations. Support will also be available for those struggling with their social, emotional mental health needs, particularly during periods of transition and/or deployment.
Lord Deramore's Primary School	South York Service Children Champions	£27,784	Creation of a cluster project across three maintained primary schools serving small cohorts of Forces families in the South of York. The project will train three Service Children Champions who will champion Forces families and carry out weekly 'Little Trooper' social/emotional/mental health interventions, early SEND screening and additional academic tutoring.

RAF Leeming CP School	Service Pupil Progression and Support	£67,317	The project will provide the necessary academic and emotional support for Service pupils by delivering adaptive teaching practices, precision teaching interventions and targeted input. SEND learners will be prioritised throughout. CPD and support will also be offered to cluster schools with small Service cohorts in meeting these needs.
St Christopher's CE School	Small Schools Cluster Project	£15,000	Three schools working in partnership to provide targeted interventions for Service children. The aim is to train staff across the team to deliver Service pupil centred interventions in order to meet the needs of small cohorts.
Thorney Island Community Primary School	Together Everyone Achieves More	£77,570	As a school with a majority of Service pupils, Thorney Island Community Primary School will share the successes they have had and train staff within other schools to deliver specialised programmes to small cohorts of Service children, benefitting the wellbeing of more Service pupils and their families.
Wigan and Leigh College	Greater Manchester Colleges Student Support	£79,464	This project recognises the hidden and compelling needs of Service children in Further Education in Greater Manchester. Often these families are in small cohorts and have a serving parent regularly away from the family home. This project will bring together colleges to improve understanding and provide targeted support.
Northern Ireland	1 project	£77,526
