

Grants awarded under the Veterans' Capital Housing Fund: Major Capital Grants Supplementary programme – September 2025

10 grants totalling £538,090

Organisation	Project Title	Grant Amount (£)	Project Description
England			
Action Homeless	Homewards Helping Veterans Towards Home Supplementary	£19,928	Action Homeless will use the supplementary funding to create one additional unit of accommodation for veterans experiencing homelessness, bringing their total to six. The project will provide good quality homes to veterans who'll receive support and opportunities to connect with peers, whilst Action Homeless work alongside them to prepare for and secure a permanent tenancy.
Bournemouth War Memorial Homes	BWMH Poppy Lane 2 Supplementary	£ 60,000	The project will install EV chargers for tenants with electric/mobility cars and no driveways to charge on site. Additional garden furniture and enhanced landscaping will create quiet areas for tenants to meet or spend time alone.
Gateshead Council	Bibby House Refurbishment Programme Supplementary	£50,373	Supplementary funding will enhance the original project providing a furnished garden room for one-to-one therapy and group work sessions. A refurbished kitchen, additional storage facilities for food items, communal outdoor seating, barbecue equipment will bring veterans together providing a good quality environment to cook and share meals.
Haig Housing	Morden New Development Supplementary	£ 60,000	This project will fit out and equip fully the new Veterans Community Centre being built as an intrinsic part of Haig Housing's original Major Capital Grant application. This will include external sustainable furniture, internal furniture, blinds, floor coverings, AV equipment and installation and kitchen equipment and utensils.

Isle of Wight Council	Island Homes for Veterans Supplementary	£ 60,000	The project will create shared space for use by residents of New Street housing project, other veterans, visitors, support agencies. This facility will provide additional indoor and outdoor space to meet together, receive support from professionals, and for visits from family and friends whilst maintaining the privacy of their own space.
Launchpad	Hollyacre House: Additional Capacity Supplementary	£ 59,520	Launchpad will make long-term, sustainable improvements to Hollyacre House's communal areas by installing a photovoltaic energy system. This will provide low-cost, carbon-neutral energy ensuring the communal areas are warm, well-lit and comfortable for the next 25 years. More than 400 homeless veterans with poor mental and/or physical health will benefit.
QVSR	Veterans' Accommodation and Welfare Support Supplementary	£ 60,000	Supplementary Funding will enable QVSR (Queen Victoria Seafarers Rest) to create a further two en-suite bedrooms for homeless veterans, increasing the number of units available to provide shelter and welfare support for homeless ex-servicemen at their accommodation in Poplar in London's East End.
Scotland			
Veterans Housing Scotland	Veteran Affordable Housing Refurbishment Programme Supplementary	£ 56,269	VHS will deliver an additional refurbishment programme to improve and extend affordable housing options for veterans with disabilities in Scotland. This will prevent housing stock becoming inhabitable, and deliver more safe, suitable and secure housing for veterans with disabilities and their families to flourish and build a better life.
Wales			
Adferiad	Wales' Veterans Quality Housing Project *Supplementary	£ 60,000	This supplementary project will enhance the veteran housing provision through installation of solar panels, battery, and air source heat pumps, to generate renewable power for heat and light to communal areas. This will improve affordability for veterans by reducing overheads and improving overall environmental sustainability of the facility for years to come.
